**Mott MacDonald,**

Chennai, India

Dear Hiring Manager,

I am writing to express my interest in the CAD Modeller Piping position at Mott MacDonald. As a recent graduate with a B.Tech in Mechanical Engineering from Bapatla Engineering College, I am excited about the prospect of contributing my skills and knowledge to the innovative projects at Mott MacDonald.

Throughout my academic journey, I have developed a solid foundation in simulation modeling techniques, gained hands-on experience with simulation software such as [AutoCAD, Solidworks, Ansys, CATIA], and engaged in projects that involved modeling and optimizing systems to improve efficiency.

My coursework in [Experimental investigation on Surface Roughness & Radial Vibration during dry training of AZ91D Magnesium Alloy & Detailed research on Structural and Thermal Analysis of hydrogen gas cylinder as mini project] equipped me with a strong understanding of simulation methodologies and their applications in real-world scenarios. I am adept at analyzing complex systems, identifying key variables, and developing models that simulate real-world behaviors, paving the way for improved decision-making processes. Also, I recently completed Solidworks & Ansys Workbench internships on internshala.

I am eager to bring my fresh perspective, enthusiasm, and foundational knowledge in simulation engineering to contribute to Mott MacDonald projects and learn from the accomplished professionals in your team.

I am enthusiastic about the possibility of discussing how my educational background and practical experience align with the needs of Mott MacDonald. Thank you for considering my application. I am looking forward to the opportunity to further discuss how my skills and eagerness to learn can contribute to your team.

Sincerely,

Evuri Manoj Gopi
